PROFESSIONAL EXPERIENCE

IT Manager

2020/01 - Present

Pardik Smart Home Company, Iran

Analysis, Manage, and Execution of optimization in the existing Active Directory

Manage Windows Services (CA, DHCP, DNS, DFS, IIS, ...)

Install, configure and manage VMware vSphere Environments (VMware 6.x, 7.x, vCenter, vMotion)

Install, configure and maintain storage hardware (HP, SuperMicro)

Develop, and manage messaging infrastructure (Mdaemon, Issabel)

Backup operation via Veeam

Also, I am designing a proper network infrastructure topology map for each project by using Microsoft Visio based on the latest network standards "Passive and Active" for our customers which our installation team can develop the BMS and Smart intercom Solutions based on that.

Install, configure and manage Kerio control as a UTM (Edge of the network)
Install, configure and manage Moodle learning service on windows platform
Install, configure and manage Symantec endpoint protection server
As an IT Manager in Pardik Company, I should give the weekly reports and documents regarding all IT tasks to the CEO Directly.

Information Technology Consultant

1998/05 - Present

Ahadiani.com, Self-Employed

I am contracted to work with industrial and commercial clients who are seeking help and advice about IT problems such as making recommendations, for example suggesting appropriate hardware, software, and systems and designing, installing, and running new systems and software, and fixing any issues that arise also training users and writing fabulous reports and documents.

IT Manager

2004/07 – 2018/11

Meshkin Co., Ltd. Partnet of the DBSchenker network, Iran

Implement and supporting of Identify Management (Active Directory)
Develop and manage messaging infrastructure (Kerio Connect, Mdaemon, Elastix)
Install, configure and maintain storage hardware (Qnap)
Manage Windows Services (CA, DHCP, DNS, DFS, IIS, ...)
Install, configure and manage VMware vSphere Environments (VMware 6.x, 5.x, 4.x)
Install, configure and manage Kerio control as a UTM (Edge of the network, site to site VPN with other company Branches)
Install, configure and manage Microsoft SharePoint foundation 2013
Install, configure and manage OTMS shipping software
As an IT Manager in Meshkin Company, I should give the weekly reports and documents regarding all IT tasks to the CEO Directly.

Hardware and Network Engineer

1998/05 – 2004/04

Pars Project Company, Iran

Implement and supporting of Identify Management (Active Directory Win2k)
Manage Windows Services (DHCP, DNS, File Server)
Designing the Passive and Active topologies in those days for project was amazing and it was my day-to-day game because our company main task was design, implement and support a network with all computers and network peripherals in that network.
